MONEY S PER CENT., NEW YORK EXCHANGE SELLING AT PAR.

Cetton Lower-Middling, \$ 7-8c-Sales Yesterday, 2600 Bales.

Money rules in strong demand at 8 per cent. Local securities continue steady.

The local cotton market was again weak yesterday and factors seemed anxious to realize. Buyers were not slow to take advantage of the situation and demanded concessions on official quo'ations, which were freely granted. The official quotation at the Exchange was Sic for middling, the tone being quoted strong; but this hardly represents the condition of the marke', as a want of strength was clearly manifest and led to a decline of te from the opening figures. The day's sales agaregated 2600 bales.

At New York spots closed quiet and easy; middling, 9 7-16c. Futures quiet; October, 9.13@9.14c.

A leading New York circular on cotton futures says: In the absence of further important offerings and assisted somewhat by elightly improved advices from Liverpool, the market made a steadier showing with 2 or 3 points recovery.

At New Orleans yesterday spots were firm; middling, 9c; futures steady; Oc ober, 8 87@8.89?. At Liverpool spots were dull, in

buyers' favor; m'ddling, 5fld; fatures were strady; October, 5 10-64d. In the general market there were no features of note.

Stocks—The sto k market was much less active than yes:erday, and the upward movement received a check. There was some buying by London, but much 'ess than has been noticed for the past few days.

The money market worked some-what close, which had an adverse influence upon speculation, but sterling exchange rates were reduced in con-sequence of the lack of inquiry and an incressed supply of cotton bills. The speculation in New England received another set back, and that stock tonight shows a heavy decline. The usual contradictory rumors were circulated, but the general impression is that the buil leaders have taken their profits. Western Union was ex-tremely scive, but shows no change this evening. The Vander-bilts were conspicuously stong in the morning, stories to the effect that the dissatisfaction of the Pennsylvania railroad had been removed, aiding the rise. Canada Southern was the most

per cent. The Canada Pacific also became active on buying by foreign houser. The general market was strong throughout the morning hours, but the extensive realizations broke the list in the afternoon, although the heavy buying of Reading in the last hour had a beneficial effect upon the rest of the list; but the market closed heavy at irregular changes. The opening was strong, the gains over last evening's final figures ranging from 1@1, generally, but Missouri Pacific was up I per cent. Several of the active list were unchanged. Western Union was down |. The market was feverish and irregular in the early trading and New England dropped nearly 3 per cent., but the remainder of the list was strong and so continued for most of the morning, though highest prices were generally made close to 11 o'clock. A somewhat irregular but generally heavy market succeeded, there being a slight rally in the last hour, but the close was weak. Final prices show irregular changes, the most marked among which is a decline of 5 per cent, in New York and New England. Tennessee Coal is down 1 per cent., but other declines are for fractions only. Among those which are higher Cieve'and, Columbus, Cincinnati and Indianapolis is up 31, Canada Southern 11, Texas Pacific trust receipts 11, and Canadian Pec fic 11. Railroad bonds continus moderately active, and follow closely the course of the share market. There was very little feature to the dealing, The Texas Pscific income trust

but the Arlantic and Pacific iccomes are still active upon the stories of arrangement to be made which will benefit the stock and junior securities. celpts were first in activity today upon good buying by insiders on the improved prospects of the success of the reorganization plan. Sales for the day were \$2,127,000. Texas Pacific income trust receipts furnished \$464,000, and Atlante and Pacific incomes \$471,000. Final prices show irregular changes. To much
